NCC Grassroots Message: Title VIII Reauthorization

**Subject Line: ACT NOW: Title VIII Reauthorization Is Critical**

As the 115<sup>th</sup> Congress enters its final stretch, Senators must pass the Title VIII Nursing Workforce Reauthorization Act before time runs out. These programs are essential to building the supply, recruitment, and retention of qualified nurses in the areas of the nation that need them most.

Let your Senators know how essential these Title VIII Nursing Workforce programs are to you, to the nursing profession, our patients, and our communities. If you have been a recipient of or any Title VIII Program, let your Senator know. Your voice is vital to ensuring these nursing workforce programs are reauthorized this year.

Action Alert Message to Senators:

**Subject Line: Pass Title VIII Nursing Workforce Reauthorization this Congress**

I write to you as a nurse and as a constituent to pass the Title VIII Nursing Workforce Reauthorization Act this Congress.

The Nursing workforce is the largest of all health professionals, with over four million nationwide. For so many, the Title VIII programs make a difference. That is why passing the Title VIII Nursing Workforce Reauthorization Act is the number one priority of the Nursing Community Coalition, which represents 61 national nursing organizations.

Title VIII programs help build the supply, recruitment, and retention of highly-educated nurses in our state and across the country. I urge you to pass Title VIII Reauthorization this Congress. Without a current authorization these Title VIII programs are in jeopardy, as is the continued education of our nation's nurses who rely upon them.

Thank you for your efforts to protect nursing education and workforce programs and the patients we serve.
